New book gives meaning to “eternal love”

What happens when love is so strong death does not separate it? In “Love Never Dies,” a new book by Loren Lockner, a woman loses her boyfriend in a car accident and develops a feeling of telepathy with him from the grave.

The boyfriend’s twin brother reveals the death was actually murder, and that the woman is the next victim. The pair is soon on the run in the Los Padres National Forest, in search of a computer disk that a hit man is also after. To make matters worse, she discovers she is falling in love with the brother, who hides a secret that could destroy every memory she holds dear.

Lockner has been writing romantic intrigues and mysteries for years. Born and raised in Southern California, she is currently working on a mystery novel based in the Big Valley. She is married and has two teenaged children.

“Love Never Dies” is available in softcover (ISBN 1-58939-905-6) from Virtualbookworm.com, Amazon.com and [Barnes and Noble.com](http://BarnesandNoble.com). The book can also be ordered from most bookstores around the United States and the United Kingdom. More information can be found at the book’s official website, www.lorenlocknerbooks.com.
